

## HEATING CABINETS

---

THE HEAT TREATMENT SOLUTION FOR BATCHES OF SMALL PARTS, SAMPLES AND TESTS.

### TECHNICAL DESCRIPTION

A very useful aid in processes such as materials testing is the MONTA heating cabinet. With this aid, you can carry out specialist tests in a wide variety of temperature ranges, as well as dry selected samples.

A MONTA heating cabinet is made up of specially developed insulation cassettes, which provide the benefit of excellent insulation and therefore contribute to greater energy efficiency.
