

## CONVEYOR SYSTEMS

---

CONVEYOR SYSTEMS FOR EVERY APPLICATION: AUTOMATED OR MANUAL, CONVEYED ALONG THE FLOOR OR HANGING UP.

### TECHNICAL DESCRIPTION

We construct complete systems for you with the perfect materials handling technology, tailor-made to suit your needs. Whether you need a Power & Free or circular conveyor, a manual feed system with automated subsections, a floor conveyor with a Duplex/Triplex system or a cross-conveyor system, we will integrate it perfectly into the overall system procedure. Includes pushers, rotating stations and part selection and mounting. All components are processed to their best quality – for smooth production processes at maximum load.
