

MATERIAL AND PERSONNEL AIRLOCKS

ELIMINATES IMPURITIES LIKE DUST AND DIRT TO ENSURE A CLEAN WORKING ENVIRONMENT.

TECHNICAL DESCRIPTION

Air that is as clean and dust-free as possible is an important requirement for optimum painting results. It also ensures a clean working atmosphere for employees.

MONTA's material and personnel airlocks use optimally arranged jets with high-speed air and a strong jet pulse to remove dust and unwanted particles, and then pass them through a recirculated air filter.
