

For our location in Kusterdingen, we are looking for the earliest possible date:

DESIGNER (M/F)

MONTA Lackieranlagen GmbH was founded in 1989 in the Swabian region of Kusterdingen, Germany, and throughout its 30 years it has developed and produced hundreds of systems to meet various requirements in the surface treatment sector. A perfect combination of years of experience and outstanding technical expertise gives rise to tailor-made systems that win users over with their efficiency and eco-friendliness. Requirements given by customers from a huge range of industries and individual preferences form the basis for the planning and development of every MONTA system. Flexibly compiled project teams use creativity and dedication to come up with innovative solutions that work in practice.

Your responsibilities

- Design complete projects
- Implement individual customer requests
- Create drawings for the approval stage
- Cooperate closely with project planning and project management teams
- Create and uphold standards
- Create a components library

Requirements

- Successfully completed studies or further study as a state approved technician, or a technical degree
- Advanced knowledge of 3D-CAD, ideally in SolidWorks
- Several years of experience in systems construction or special machine construction
- Good MS-Office skills
- Good knowledge of written and spoken English
- Strong communication and teamwork skills
- Highly committed and flexible
- Willing to travel
- Able to work independently in a structured, quality-oriented manner

What can MONTA do for you

If you want to make a difference in a technically demanding environment with a good working atmosphere, then this position is varied and provides good opportunities for your personal and professional development. Give us a call to find out more, or simply send us your application, preferably by email.
